

Hey Parents and Families!

During this time, families are doing their best to get students off of screens. But there are fun games and apps to play together as a family on devices. Below are 7 different apps you can download on your phones to play and create memories together!

Enjoy,
Tyler

Top iOS Apps for Families:

1. **Family Feud**: Bring the classic game of family feud to your family! Free version. The paid version adds more features to the game.
2. **Mucho Party**: Take a selfie and your picture goes on a picture of a clock, tomato, apple, telephone, teapot, or lemon avatar. It's an app of mini-games to test each player's random skills. Great for all age levels!
3. **Keep Talking & No One Explodes**: You're alone in a room with a bomb. Your friends, the "experts," have the manual needed to defuse it. But there's a catch: The experts can't see the bomb, so everyone will need to talk it out—fast! Rounds are fast-paced, tense, occasionally silly and almost always loud. Whether it's diffusing a bomb or deciphering information from the manual, everyone has a crucial role to play.
4. **Scrabble—GO**: Play the classic game on a screen with other family members...see who the ultimate word champion is!
5. **Sayonara Wild Hearts**: This one is a dreamy arcade game about riding motorcycles, skateboarding, dance battling, shooting lasers, wielding swords, and breaking hearts at 200 mph. As the heart of a young woman breaks, the balance of the universe is disturbed. A diamond butterfly appears in her dreams and leads her through a highway in the sky, where she finds her other self: the masked biker called The Fool.
6. **Draw Something**: This game is easy to understand and play, as well. Your family can share the fun with people across the globe. This is possible through an internet sharing portal. Draw Something requires that every member take turns at drawing. They can then enjoy tallying up the points to find out the winner.
7. **Settlers of Catan**: The classic game available to play on screens! Trade, build, and settle. As in Klaus Teuber's original game, up to four players—in hot-seat, multiplayer mode or online—can vie for the most settlements, the longest road, and the largest army. You can trade with your opponents and take possession of the precious land and its resources.

And, one non-game app is: **1 Second Everyday**. This is a video diary that makes it easy to take your day-to-day moments and create a meaningful movie of your life. You can document your memories for 1 year or for the Covid-19 season at home. Get started with 1SE today by downloading the app to create a "digital" photo album!
